Don't you feel like shouting with this slight touch of spring? Get busy and plan to build something. If you cannot build, boost. To talk, simply talk, will not make a city grow. Portsmouth wants 100 hustlers—men who are willing to help others; not men who simply want to grind labor down, but who are willing to share with them. This year should be a banner year for Portsmouth.

SAND STORM FOLLOWED BY A BLIZZARD

Much Damage in West--Hundred Mile Gale

(By Associated Press)
Chicago, March 19.—Terrible sand and dust storms continued today in the southwest with conditions changing to a blizzard in the northwest. Only in the eastern Rocky Mountain region which suffered heavily yesterday from the wind which blew from fifty to one hundred miles an hour was a return to nearly normal conditions reported. In the Southwest, particularly Kansas, much damage was reported to newly planted wheat. The winds swept up vast volumes of dust from the recently cultivated fields and reports from some places state the sun was obscured for hours. The dust clouds in northwest Colorado hid the sun for hours yesterday and the tracks of the Colorado and Southern railroad were covered so deeply by the sand that detours were necessary. The Denver and Salt Lake railroad was forced to suspend operations in

the mountain districts because of an one hundred mile an hour gale in the passes.

BERNSTORFF LOOMS UP IN GERMANY

He is Slated for a Cabinet Position.

(By Associated Press)
Copenhagen, March 19.—An agreement has been reached regarding the reorganization of the German cabinet. It is stated in advices reaching here today, Count Von Bernstorff, former Minister to the United States, is slated for Minister of Foreign Affairs and Capt. Cuno, general manager of the Hamburg-American Line, for the Ministry of Finance.

Paymaster Thomson, U. S. N., formerly stationed in this city, and a member of the Portsmouth Lodge of Elks, was a visitor in this city on Wednesday. He is leaving this week on the U. S. S. Dale from the Boston yard for the West Coast.

(By Associated Press)

Berlin, March 19.—Berlin is still under the rule of bayonets, the troops loyal to the Ebert government controlling the streets. Forces which supported the regime see up last Saturday by Dr. Kapp and his followers left Berlin yesterday. Withdrawal of the soldiers has left chaos behind as the rear guard turned against the fleeing crowds and fired, many citizens being killed and scores wounded. A mob-blooding occurred near the parliament building while in certain suburbs of the city there were clashes which resulted in loss of life. Troops from Germany outside of Berlin are of such a character that a clear view of the situation is hard to obtain. While it is said Soviets have been formed in a number of important towns and cities and a industrial districts it does not appear the movement is obtaining momentum. On the other hand it would seem communal sympathizers have met with stern opposition at many points and it is possible Soviet activities have been exaggerated.

Coblenz, March 18.—Troops of the Ebert government are now guarding Berlin according to advices from that city which state that a general communal outbreak is still threatening. Information direct from Berlin this evening is that the Independent socialists have decided to continue the strike. Poor conditions are reported serious as no trains have come to Berlin for five days.

Stuttgart, March 19.—Fifty persons were killed in violent fighting at Leipzig, it is reported. Workmen in their clash with troops drew up barricades, dug trenches and fought almost organized warfare. Mines were exploded near the railway station.

Berlin, March 18.—General Von

Seeckt in command of the troops at Berlin issued a proclamation to the army today in the name of the Minister of Defense urging it "to stand together as before against any attempt to establish Bolshevism." The General asks the troops "to place the welfare of the Fatherland before all other considerations."

(By Associated Press)
Stuttgart, March 19.—The majority socialist leaders here have demanded that Gustav Noske, minister of defense, resign his post. Noske has complied by tendering his resignation. To President Ebert but the government has not reached a decision as to its acceptance and will not do so until the cabinet has considered the question.

HUNDREDS OF COAL MINERS KILLED

(By Associated Press)
London, March 19.—Hundreds of persons have been killed in the mining districts of Germany in collision between miners and troops. It is declared in reports received at Copenhagen, the Central News correspondent in that city telegraphs here. Telegrams received from the big towns in Germany the message adds, show that fighting is proceeding in nearly all the thickly populated areas where soldiers and workers are opposed.

(By Associated Press)

Montreal, March 19.—Mrs. Philip Lavie, her three small children and her brother-in-law lost their lives in a fire which destroyed their home here today. The husband awoke in time to escape. Mrs. Houdon's Beauty Parlor, Congress Block, will be closed from March 20 to April 3.

DECKS CLEARED FOR TREATY VOTE

Washington, March 19.—Preparing for a final vote on ratification of the peace treaty the Senate today adopted the modified reservation preamble worked out in the bi-partisan conference under which affirmative acceptance of the reservations by the other powers would not be required. The preamble provided that "future on the part of the allied and associated powers to make objection to the said reservations and understandings prior to the deposit of the ratification by the United States shall be taken as a full and final acceptance of such reservations and understandings by said powers." The preamble was offered by Senator Lodge and accepted without a roll call.

One corporation was reported to have paid \$6,000,000 as the first installment of \$24,000,000 due the Government as income tax. Another corporation's quarterly payment amounted to \$2,500,000. The number who made returns on incomes of \$100,000 was great, revenue officials said.

SENATE ADOPTS AN IRISH RESERVATION

Break From Control of Leaders in Yesterday's Debate and Express Sympathy for Ireland

(By Associated Press)

Washington, March 18.—Proceeding under forced draft to reach a final vote on the ratification of the Peace Treaty tomorrow, the Senate this afternoon broke from control of the republican leaders and inserted into the republican reservations a declaration of sympathy for Ireland after a day of debate. In the committee of the whole it was adopted by a vote of 35 to 36 and upon the necessary second vote to confirm it, by a vote of 45 to 35. During the debate the democrats supported the measure, and also the Irishists on many on the republican side. The republican leaders opposed it as being too broad, 21 democrats and 17 republicans voted for it, while 20 republicans and 16 democrats voted in the negative. The text of the reservation which was introduced by Senator Gary, democrat of Rhode Island said: "In conformity with the ratification of the treaty with Germany the United States adheres to the principle of self-determination and a resolution of sympathy for the efforts of the Irish people for government of their own choice adopted by the senate June 6, 1919 and declares that when the self government is obtained by Ireland, a condition it is hoped soon at hand, that Ireland be admitted to the League of Nations." The New England senators voted on the reservation for its passage. Brundage, Colt, McLean, Moses, Democrats Gary and Walsh, Opposed—Dillingham, Hale, Keyes, Lodge and Page. On the second vote Penland voted for the resolution and Page of Vermont changed from opposition to the affirmative.

After a final attempt to modify the article ten reservation the reservation was reconfirmed by a vote of 54 to 20, late tonight.

Washington, March 18.—A final vote on ratification of the peace treaty seemed probable today while plans were not being made for a show-down

before tomorrow and perhaps not until Saturday. Senate leaders were prepared to put the treaty to a test immediately if all the remaining reservations were disposed before adjournment. A night session was regarded as likely in the event it seemed possible to bring a conclusion to the famous controversy which has been before the Senate many months. The presence of Wm. Jennings Bryan and his influence to persuade the democrats to accept the best compromise the could obtain on the reservation submitted by the Irishists so that the treaty might be ratified before the presidential election gave added uncertainty to the outcome of the ratification vote. About a dozen reservations remain to be acted upon but are concerned with minor questions unlikely to provoke much speech-making. Debate has been limited by agreement to 15 minutes to each member on each reservation.

During her testimony Mrs. Stover collapsed and fell through the railing of the witness stand into the aisle. Several physicians who were in the court room as witnesses attended her.

GETS POISON BY MISTAKE

New York, March 18.—Alleged misreading of a doctor's prescription resulted late Thursday in the death of Mrs. Bertha De Kora of Brooklyn and the arrest of Arthur G. Seay, a pharmacist, on a charge of manslaughter. According to the police, Seay gave the woman instead of the medicine prescribed for her a poison with a similar name. The bottle bore the usual poison warning but the woman could not read English.

Dr. Charles Frey the woman's physician, who declared he wrote the prescription carefully, said that the owner of the drug store had discovered Seay's alleged mistake and telephoned him. Before Dr. Frey could reach the woman's home, however, she had swallowed the poison.

"EVERY MAN TO WORK" IS SLOGAN OF EBERT

Copenhagen, March 18.—A dispatch received from Stuttgart tells of a proclamation issued by President Ebert and his government on Wednesday. It is signed by Ebert and says:

"The criminal adventure at Berlin ended. Irreparable harm has been done to the whole world by the struggle of the last few days that threatened the German republic is no deception and that it alone has the power and knows how to make short shrift with even an attempted military dictatorship."

The proclamation urges the cessation of the general strike and a resumption of economic life, particularly as regards the production of coal. "Every man to work!" it says. "Traitors to the people who forced you a resort to the general strike will be not severely punished by the government, which will see that no soldiers gain shall be able to interfere with the destiny of the German people. To other we have achieved victory! To

The Right of Free Speech.

No paper in the United States stands more strongly or squarely for free speech, in the proper sense of that term, than does this paper. This must have been made plain to its readers by what it has said on the subject from time to time, but it is impelled to further discussion of the question by two recent addresses.

The first was given last week at Boston in the University Extension Course by Michael J. Jordan, who compared the parliamentary systems of England, France and the United States, from which he drew the lesson that in the development of democratic freedom all changes must come gradually and that "we should lend a tolerant ear to men advocating political changes if such men advocate them through constitutional means." "The new generation," he said, "always strives to widen the liberties won by the preceding one." Freedom of speech is one of the most precious rights guaranteed under the constitution, and it makes no difference if a man be a Democrat, a Republican or a Socialist, if he attempts changes in the government lawfully no one has any right to hinder his talking.

And no one has ever attempted to hinder the talking of men endeavoring by force of argument to bring about changes in or under the government. The right to do this is as free as the air we breathe and has never been questioned. On the contrary, the right has been stretched to such unreasonable lengths that anarchy has been openly preached for years. Of late the country has been waking up to the danger involved, and the awakening has come none too soon.

The other address was delivered this week at Williamstown, Mass., before the Williams College Forum by Harvey C. Jewett of South Dakota, who as a member of the State Constabulary has been brought into close touch with the I. W. W., one of the most dangerous organizations in the country today, but which still demands the right of free speech, free assembly and free sabotage. Mr. Jewett spoke of the work of this organization among the migrating laborers who harvest the crops and work in the logging camps of the West and Northwest, to whom they make life a burden unless they become members of a body which is composed of men willing to resort to the basest and most violent methods to gain their ends. The country is familiar with their aims and methods, which are no more entitled to free speech than are robbery and murder entitled to the protection of the laws. And one of the most disturbing statements of the speaker was that the membership of this menacing organization is steadily increasing.

Such facts as these should be borne in mind by the advocates of free speech. To contend that it is safe to allow such an organization, and others no better, to spread their pernicious doctrines is as senseless as it would be to argue that there is no danger in slicking one's hand into the fire.

Free speech in this country there is, always has been and always will be for those making a proper use of the privilege, but the line must be drawn on attempts to override or overthrow the government, as the majority of the people have come to realize. To grant free speech to the enemies of freedom would be nothing short of suicidal, and it is well that lovers of liberty and order are not yet ready to do this.

Maine has just celebrated the 100th anniversary of its independent statehood and is boasting of the progress it has made under such prohibition as it was able to maintain on its individual responsibility. One hundred years from now it will be interesting to note its progress under the "real thing" in the way of prohibition—if it lasts that long.

Highly cheering is the news that three great cruising submarines are to be built at the navy yard, which has gained an enviable reputation for work of this character. The vessels will be the largest of the kind yet turned out in this country and their construction will mean profitable employment to the army of workers employed on the yard.

The Panama Canal is still disposed to "let 'er slide."

Buyers are reported very numerous at the Boston motor show, and it is said that many of them appear quite indifferent with reference to prices. And yet the shouting about the cost of living continues.

The firemen in the Smith College buildings at Northampton, Mass., went out on strike a few days ago and their places were taken by members of the faculty. But how long will up-to-date young women students consent to study under "scab" professors?

A dispatch says it was President Wilson's policy in Mexico that resulted in the resignation of Secretary of State Lansing. It has been commonly supposed that it was the President's policy in Washington which brought about the result.

New England, and especially the Boston and Maine railroad, is suffering from a shortage of freight cars. Shippers should co-operate in relieving the situation by unloading cars promptly upon their arrival.

The railroad maintenance of way men have decided not to strike for the present, and to "give the law a trial." Is it beginning to be suspected that the private owners will not be so easily manipulated as was Uncle Sam?

DESTROYED

(By Associated Press.)
Kennebunk, Me., March 19.—The town hall, a brick structure erected half a century ago, was burned today. The loss was placed at \$30,000, but it was said the building could not be replaced for less than \$75,000. Only the walls remained. The cause of the fire was not known. A dance was held last night in the upper section used as an opera house but it was over four hours before the fire was discovered. The selectmen's offices were located on the ground floor. The town locker was in the basement.

U. S. DISAGREES
WITH ALLIES

(By Associated Press.)
Washington, March 19.—"Strong reasons" have been made by the American government against rulings of the allied reparations commission that under the peace treaty sale of certain German property in neutral countries can be forced if necessary to satisfy the initial payment of the German indemnity. Under Secretary Folk of the State Department wrote today to Senator Henderson, denouncing the ruling as "a further prelude" to a preparation as such a construction of the treaty was contrary to an official interpretation exchanged between Germany and the allied powers.

Wants to See a Game

An article announcing a challenge by the girls basketball team of Bath, N. H., appeared in your paper of Thursday and as an admirer of the game, I hope the Portsmouth Legion girls will not close their eyes to this delusion from Bath. Before either of these respective teams make any claims to the championship, they should play a series for the "rightful" claim to the superiority.

THE PARTING OF THE SPIRITS

Old Tom and Jerry stood upright Not knowing what to say. The names they bore were all they had For me that New Year's day. And there were spirits Dock and Nye, Long necked, and very tall, And other spirits standing there Whose names I can't recall.

"What can folks do?" a spirit asked When they have colds and grippe, If I'm not used to break it up With something hot to sip? And what will people do when need, Our help, to make them sleep? And over them might after night Our spell we do not keep.

Then Jacky Free, and Gibson Stout Let up a mournful wail, And all the spirits standing there, All told a mournful tale. And they agreed that Uncle Sam Had surely lost his head, To think, to banish from their friends These use, the spirits said.

But Uncle Sam just shook his head And stroked his whiskers gray And said, "The W. C. T. U. at last Are going to have their way. And Spirit! You have gone to stay They'll have you back 'No, Never!' For when the women all have votes Your spirits gone forever!"

NAVY YARD NOTES

Transferred to Olympia.
Chaplain J. T. Casoy, of the U. S. New Jersey, at Boston, has been ordered to the U. S. S. Olympia at New York.

Medical Examination.
A medical board convened at the Charlestown yard on Thursday for the purpose of examining several officers.

The Longest So Far.
A wireless telephone system at the Charlestown yard established communication between the yard and the radio compass station at Gloucester on Thursday.

13,000 Must Go.
Secretary Daniels has again made it plain that a big discharge is coming at navy yards, which cannot be prevented. His latest announcement in the matter came in a communication to Mayor Peters of Boston who appealed for work on the U. S. S. Nevada to be done at Charlestown.

The letter from Secretary Daniels read in part:
"Failure of congress to give us the appropriations necessary to repair the ships that need repairing is making it impossible to keep all our ships in the readiness which the experts of the navy feel necessary."
"We will have to drop 13,000 capable and skilled men from our navy yards for lack of funds. I regret this more than I can tell you and I have diligently sought by every means in my power to secure enough money to do the necessary work, but have failed so far; and therefore there is nothing I can do except to lose men whose services are most valuable. I wish to assure you that as far as money goes, Boston will get its share of the work."

Officers to Bowl.
Plans are being perfected for a bowling tournament among the officers of the yard and ships. So far six teams are spoken of for the contest to represent the following: U. S. S. Des Moines, Building 22, Supply Department, Industrial Department, Marine Barracks and Medical Department. It is understood that a cup will be awarded the men with the highest individual score. The kind of pins for the contest has not yet been decided on.

Docking Orders.
According to the present plans the U. S. S. Des Moines and the two Eagle boats will float from the dry dock on Saturday, March 27. The Eagle and Eagles 38-47 will then go in for hull work and painting.

Loading Coal.
Two thousand tons of coal are being loaded for the local yard supply department at Lambert's Point and will come along shortly.

Sailors Coming.
A detachment of 19 sailors will arrive here tonight from the Newport Training Station.

Helpers for Smith Shop.
Three shipsmiths' helpers were called today by the labor board for the industrial smith shop.

Looking for Ball Team.
The Marine Guard at the yard that has done so well in basketball circles the past winter are now looking around with hopes of digging up a good baseball team to represent the barracks the coming summer and go after the local teams and those of the surrounding towns. The men believe the prospects are good.

LOCAL PASTOR TO CONCLUDE DUTIES HERE

Rev. Percy W. Caswell Accepts Call to Manchester Church.

LOCAL PASTOR. Rev. Percy Warren Caswell, for over seven years pastor of the Court Street Christian church of this city, has tendered his resignation to the board of trustees to accept a call as pastor of the Community Christian church of Manchester, this state, and will take up his new duties May first. That Rev. Mr. Caswell is to leave the city is much regretted by his church people and by the community in general as he has been an able pastor and made many friends in this city. He took up his duties as pastor here on Jan. 1, 1913 and when the church was not in a very thriving condition and his ministry has been most successful. During that time the Court Street Christian church has gained in membership and strength and he will leave it in good financial condition.

Rev. Mr. Caswell has worked unflinchingly to promote the welfare of the church and was a most popular pastor. Not only did he labor for his own church but was a help in the community and often gave addresses at the Y. M. C. A., or led the song services at the men's meetings on Sunday afternoons and frequently spoke at the service men's meetings at the "Y" but at the fort. He was especially popular with the young people and helped bring a good number into the church. Mrs. Caswell will also be much missed in the church as she ably assisted her husband in some of the church work. The church of which Rev. Mr. Caswell is to be pastor is a strong church and in the society are many young people and it is a fine opportunity for him to do even a larger work. While he will be much missed in this city he has the best wishes of all in his new field of labor.

ST. PATRICK'S CARD PARTY

At the Woman's Building on Wednesday evening, March 17, a very attractive St. Patrick card party was conducted under the direction of the Woman's City club, the committee in charge including Mrs. Harold L. Smith, Mrs. Ernest J. Charney, Mrs. Wallace Lenn, Mrs. T. B. Sterling, Mrs. Chas. P. Berry, Mrs. Charles Penbody, Miss Tabman, Miss Alice Madden, Miss Charlotte Wright. Appropriate decorations in ferns and other green, suggested by the day, were attractively arranged in the several rooms where cards were played. Ice cream and cake were served to the players, and home-made candy was on the table. The ladies' prizes for first honors were won by Mrs. Walter Brown and Mrs. Walker and the gentlemen's prizes by Mr. Harold Smith and Mr. Charles Penbody.

The regular meeting of the club occurred Thursday afternoon at three o'clock following a meeting of the board of directors. Miss Edith Brewster very cleverly illustrated the results that might be obtained by the great work of Americanization by the means of story-telling. She related several narratives illustrating the development of latent patriotism in the native born, and incidentally the wonderful work in the lives of the strangers reaching our shores. Each story met with earnest applause, and many were interested to know that a course along these lines is being offered each winter at the Portsmouth Public Library.

Tea, sandwiches and fancy refreshments were served after the program. Mrs. N. E. Curtis being in charge of the pouring, and Mrs. L. E. Ever and Mrs. A. Graham assisting Mrs. Curtis.

HOOVER IS FOR RESERVATION TO THE TREATY MORE WARSHIPS

New York, March 10.—Herbert Hoover, in a statement issued from his office here today, advocates early ratification of the Peace Treaty "so long as the final form gives us freedom of action and room for constructive developments which should satisfy the most thoughtful as to entanglements." The statement was issued in response to a request of the Washington Star for his views on the subject.

Mr. Hoover expressed the belief that the reservations "do not destroy the spirit of peace" and with reservation of the creation of a potent organization to mitigate the dangers in front of us and the alternatives are a continuation of our state of war for another year or the unbridgeable chasm for us to make a separate peace after we have gone so far as to agree on its main lines with comrades-in-arms.

"Despite the feeling of President Wilson and his associates that the strength of the League is somewhat undermined by the reservations, Mr. Hoover expressed the opinion 'they also should accept' them."

"Regardless of what any of us may think should have been the provisions of either the League or the Treaty," he asserted, "we and the world should not be kept waiting longer for a settlement."

Due to the "unsettlement and the causes that the League would mitigate," he continued, "the world is steadily drifting back to a worse state of international antagonisms than existed before 1914. The moral strength of every great nation, except the enemy and Russia, has been increased during the war. Many great armies have been demobilized, yet the world is again engaged in preparedness and the actual numbers of men under arms today is much larger than before 1914. No moderating influences can be set up until we come to conclusion and join the League that was created at our inspiration and upon which the entire theme of settlement—our real hope of a better world—revolves."

"The President seems to feel that the foundations of the League rest upon our participation (subject to approval of Congress on use of force) in an obligation to preserve the territorial integrity and political independence of its members against aggression. Without entering upon this method of prevention of aggression, I believe a great foundation of peace does lie in the continuous functioning of a body of great international representatives sitting opposite the pettiness of day to day international relations engaged upon conciliation, the mitigation of antagonisms, the very effective boycott of disturbers through arousal of public opinion against them and through the immediate understanding of abandonment of the world to a simple defensive footing."

U. S. BUILDING MORE WARSHIPS

Washington, March 10.—The United States American naval experts say, in building more warship tonnage than any other nation.

Twelve super-dreadnoughts and six great battle cruisers, aggregating 850,000 tons, are under construction in private and navy yards. They will carry a total of 172 sixteen-inch rifles and twenty-four fourteen-inch rifles, and all will have the new electric drive engines.

With the completion of this fleet, probably in 1923, the United States will have a battle force of nineteen super-dreadnoughts and six battle cruisers in the first line and eight dreadnoughts and a number of smaller battleships in the second line.

American naval men say that among the world's fighting craft the six battle cruisers and six of the new battle ships—the South Dakota, Montana, North Carolina, Massachusetts, Indiana and Iowa—will be in a class by themselves. The cruisers will have a speed of about thirty-three knots—thirty-seven and a half—and each will carry eight sixteen-inch guns. They will be 874 feet long over all, 90 feet beam, will displace 33,500 tons, and have 180,000 horsepower.

The six super-dreadnoughts will carry in its main battery 12 sixteen-inch rifles. They will be 684 feet long, 105 feet broad and displace 43,200 tons. Their speed will be 23 knots and horsepower 60,000.

These ships and the battle cruisers are just now being gotten under way, but most of the other six battleships are well on the road to completion. The Maryland, to be launched at Newport News Saturday, and the Colorado, Washington and West Virginia will carry eight sixteen-inch rifles each will be 624 feet long, 93 feet broad and displace 32,000 tons. Their speed will be 21 knots and horsepower 20,000.

The Tennessee, to be commissioned in May, and the California will carry 12 fourteen-inch rifles, and will be 627 feet long, 97 feet broad and displace 32,000 tons. Their speed also will be 21 knots and their horsepower 25,500.

In addition to these 18 capital ships the Navy is building a number of destroyers, submarines and auxiliaries, and while no new construction is likely to be authorized this year, Congress is expected in another year to provide for at least one and perhaps more capital ships as well as for a number of smaller vessels, including fleet oilers, ocean tugs, and submarines.

Cannot Praise this Kennedy too Highly

THE WAY ONE LADY FEELS AFTER SUFFERING TWO YEARS

Judging from her letter, the misery and wretchedness endured by Mrs. Charlie Taylor, R. F. D. No. 1, Box 144, Dillon, S. C., must have been terrible. No one, after reading her letter, can continue to doubt the great healing power of Dr. RU-NA for troubles due to catarrh or catarrhal conditions in any part of the body. Her letter is an inspiration to every sick and suffering man or woman anywhere. Here it is: "I suffered two years with catarrh of the head, stomach and bowels. Tried two of the best doctors, who gave me up. I then took Dr. RU-NA and can truly say I am well. When I began to use Dr. RU-NA, I weighed one hundred pounds. My weight now is one hundred and fifty. I cannot praise Dr. RU-NA too highly, for it was a Godsend to me. I got relief from the first half bottle and twelve bottles cured me. I advise all sufferers to take Dr. RU-NA."

U. S. SENATE'S DECLARATION FOR IRISH SELF-GOVERNMENT

Washington, March 10.—The Peace Treaty reservation regarding Ireland, which was proposed by Senator Gerry Democrat, Rhode Island, and was adopted, 45 to 38, reads as follows:

"In consenting to the ratification of the treaty with Germany the United States adheres to the principle of self-determination and to the resolution of sympathy with the aspirations of the Irish people for a Government of their own choice, adopted by the Senate June 6, 1912, and declares that when such government is attained by Ireland, a consummation it is hoped is at hand, it should promptly be admitted as a member of the League of Nations."
